

VIMARISH K M

DATA SCIENTIST

vimarish.ie@gmail.com | +353 892101517 | <https://www.linkedin.com/in/vimarish-k-m-0b8a8216a> | <https://github.com/Kmvucd>

SUMMARY

Data Scientist with a strong foundation in machine learning, deep learning, and statistical modelling, complemented by industry experience in the data field. Skilled in building efficient end-to-end ML pipelines using Python, R, and cloud services (AWS, Azure, GCP). Proven expertise in computer vision, NLP and demonstrated the ability to combine CNN's, classical ML algorithms, and LLM to solve real-world problems.

SKILLS

Data Technologies: Python, R, SAS, SQL, PL/SQL, Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, Seaborn, PyTorch, PySpark, Langchain, LLM, NLP, OpenAI, MySQL, Flask, Streamlit, FastAPI, BentoML, MLFlow, DVC, MongoDB, Pyspark	Tools: Dockers, Github Actions, Git, Jupyter Notebooks, VS Code, JIRA, Databricks, Pinecone.	Cloud Technologies: AWS (S3, Redshift, Glue, EC2), Azure (Data Lake, Data Factory, Synapse), GCP (BigQuery, Cloud storage), Oracle, Web services (SOAP/REST).
	Soft skills: Problem solving, Teamwork, Leadership, Initiative.	

PROFESSIONAL EXPERIENCE

Data Scientist, PricewaterhouseCoopers	Nov 2022 - Aug 2024
- Proven experience designing, developing, and monitoring ML/DL solutions using frameworks like PyTorch, TensorFlow, or equivalent. - Built and deployed forecasting models and data-driven simulations (using Python and SQL) to predict operational performance and demand trends, supporting resource planning and optimization. - Designed, implemented, and automated robust data pipelines and ML models, including feature engineering, model training, evaluation, retraining, and deployment using Python, SQL, Scikit-learn, and Pandas. - Utilized Databricks and cloud-based big data platforms to process and analyze large operational datasets, improving scalability and efficiency. Designed and implemented machine learning models for anomaly detection and predictive maintenance, resulting in improved operational efficiency and reduced downtime. - Proficient in Docker, cloud platforms (AWS S3, GCP, Azure), and integrating machine learning pipelines to support quantitative research. - Working knowledge of distributed data tools like Hadoop, Kafka, and Spark for scalable data ingestion and analysis. Participated in Agile development cycles, managing multiple priorities and contributing to iterative delivery of analytics solutions in a fast-paced environment.	
Oracle Cloud Technical Consultant, PwC	Mar 2021 -Nov 2022
- Built OIC integration to streamline processes, eliminating the need for a manual program to improve workflow automation. - Responsible for the development of multiple PL/SQL packages to stage MongoDB (JSON) data into Oracle ATP database, optimising data handling and processing.	

PROJECTS

- AI Medical LLM** - (Python, Pinecone, OpenAI, Langchain, Groq, HuggingFace, Flask)-Developed an AI chat bot that answers medical queries by loading medical PDFs into the Pinecone vector database and utilising Groq for NLP. Deployed on AWS EC2 with GitHub Actions for CI/CD. [LLM Project](#)
- Pneumonia Detection - Lung X-rays** (Python, PyTorch, AWS S3, EC2, Streamlit, BentoML) - Built a deep learning pipeline to detect pneumonia from lung X-rays using VGG16-based CNN and custom CNN architecture. Automated S3-based image ingestion, applied real-time augmentation, and performed model evaluation on the best selected model. Deployed the application in S3 EC2 using git hub actions. [DLProject](#)
- Student Performance Prediction System** (Python, scikit-learn, Pandas, Flask) - Built an ML pipeline to predict student performance using multiple regression models. Implemented data ingestion, imputation-based transformation, hyper-parameter tuning, and model evaluation using RMSE/R². Deployed best model using Flask for real-time predictions. [MLProject](#)

EDUCATION

Master's in Data and Computational Science University College Dublin, Ireland (Sep 2024 - Aug 2025)
Bachelor's in Electronics and Communication Engineering PSG College of Technology, India (Aug 2017 - July 2021)

CERTIFICATIONS

- Certifications:** Data Science Specialisation -Coursera, Oracle Cloud Platform Application Development 2021 Certified Specialist | 1Z0-1043-21, Oracle Cloud Platform Application Integration 2021 Certified Specialist | 1Z0-1042-21
